

SpinJet

Hi pressure coolant system.

An innovative hi pressure and auto back wash system for machine tools -emulsion and oil.

Features:

- Automatic Back Wash filtration better than ISO17\14.
- 5 to 170 Bar at flows between 30 - 135 lpm .
- Automatic PID flow and pressure control.
- PLC controlled with friendly HMI to set parameters via the screen such as :
Pressure requested, Temp control, flows, Maintenance etc.
- Easy Plug and play installation.
- Oil or emulsion applicable.
- Fit environment regulations.
- Easy and simple operation.
- Floor space: 1.7 X 0.8 m.
- Height: about 1.7 m.

Benefits:

- Reduces thermal shock
- Aids in chip removal and breakage.
- Allows for increased speeds and feeds
- Improves tool life
- Improves surface finishes
- Reduces energy requirements
- Consistent component quality
- Increased productivity.
